for early diagnosis and treatment of cancer in their communities, with a view to reducing the annual toll of 160,000 lives taken by cancer, which now ranks second among the causes of death in the United States:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby set apart the month of April 1942 as Cancer Control Month, and I invite similar action on the part of the Governors of the several States, Territories, and possessions of the United States.

I call upon State and local agencies, the medical profession, scientific leaders, civic groups, and the informative instruments of press, radio, and screen, in cooperation with the Women's Field Army of the American Society for the Control of Cancer, to spread the knowledge of the early symptoms of cancer and disseminate information regarding the location and function of cancer clinics and other health facilities.

I also urge the men and women of the Nation, especially those over 35 years of age, in whom cancerous growths are most likely to occur, to set aside a specific time during the month of April to obtain a thorough physical examination, in order that any premonitory signs of cancer may be detected and eliminated. This simple act on the part of individuals will go far toward the prevention of suffering and of the many unnecessary deaths from cancer.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done at the City of Washington this 3rd day of April in the year of our Lord nineteen hundred and [SEAL] forty-two and of the Independence of the United States of America the one hundred and sixty-sixth.

Chapter IX—Agricultural Marketing Administration

[O-34-2]

PART 934—MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

AMENDMENT NO. 2, TO THE ORDER,¹ AS AMENDED, REGULATING THE HANDLING OF MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

The Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Law 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, issued, on July 28, 1941, and effective as of August 1, 1941, the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area.

There being reason to believe that amendment of said order, as amended, would tend to effectuate the declared policy of the act, a notice was given on the 20th day of August 1941, of a hearing which was held on August 28, at Lawrence, Massachusetts; at which time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended, and thereafter Amendment No. 1 was issued, effective November 1, 1941.

There being reason to believe that further amendment of said order, as amended, would tend to effectuate the declared policy of the act, notice was given on the 14th day of January 1942, of a hearing, which was held on January 21, at Andover, Massachusetts, at which time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

The requirements of section 8c (9) of the act have been complied with.

It is found, upon the evidence introduced at said latter hearing on proposed amendments, said findings being in addition to the findings made upon the evidence introduced at all prior hearings on said order and amendments thereto (which findings are hereby ratified and affirmed, save only as such findings are in conflict with findings hereinafter set forth):

§ 934.0 Findings.

(i) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to Secs. 2 and 3 (e) of said act, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such

milk, and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(j) That the order, as amended by this amendment, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(k) That the issuance of this amendment to the order, as amended, and all of the terms and conditions of the order, as so amended, tend to effectuate the declared policy of the act.

It is hereby ordered that the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Mass., marketing area, shall be, and it is hereby amended as follows:

1. Delete § 934.3 (b) (2) (i) and substitute therefor the following:

(i) as being sold, distributed, or disposed of other than as or in milk which contains $\frac{1}{2}$ of 1 percent or more, but less than 16 percent of butterfat; and other than as or in chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk for human consumption, and

2. In § 934.4 (b) (1) delete the date "1942" and substitute therefor the following: "1943."

3. Delete subdivision (i) of the proviso in § 934.4 (c) (2) and substitute therefor the following:

(i) compute the average of all the dry skim milk powder quotations for carlots for "human food products (roller process) in barrels" and for "animal feed products (hot roller) in bags" (using midpoint of any range as one quotation), published during such delivery period by the United States Department of Agriculture for New York City, subtract 4.56 cents, multiply by 7; and

4. Add at the end of § 934.4 (d) a second proviso as follows:

Provided further, That in the event the Class I price pursuant to § 934.4 (b) becomes \$3.86 per hundredweight, as of the effective date of such price and for all delivery periods thereafter, § 934.4 (d) shall not apply and the applicable price pursuant to § 934.4 (b) shall apply.

(Amendments to §§ 934.0; 934.3 (b) (2); 934.4 (b), (c), and (d); issued under the authority contained in 48 Stat. 31, 670, 675 (1933); 49 Stat. 750 (1935); 50 Stat. 246 (1937); 7 U.S.C. and Sup. 601 et seq.)

Issued at Washington, D. C., this 3rd day of April 1942, to become effective on and after the 6th day of April 1942. Witness my hand and the official seal of the Department of Agriculture.

Whereas the Administrator upon reviewing all the evidence adduced in this proceeding and after giving consideration to the provisions of the Act with special reference to sections 5 and 8, concludes that the Industry Committee's recommendation for the Railroad and Property Carrier Industry of Puerto Rico, as defined, is made in accordance with law, is supported by the evidence adduced at the hearing, and taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of the Act; and

Whereas the Administrator has set forth his decision in an opinion entitled "Findings and Opinion of the Administrator in the Matter of the Recommendation of the Industry Committee for the Railroad and Property Carrier Industry of Puerto Rico for a Minimum Wage Rate in the Railroad and Property Carrier Industry of Puerto Rico" dated this day, a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department

of Labor, 1560 Broadway, New York, New York;

Now, therefore, it is ordered, That:

AUTHORITY: §§ 618.1 to 618.5, inclusive, issued under the authority contained in sec. 8, 52 Stat. 1064; 29 U.S.C. 208.

§ 618.1 Approval of recommendation of Industry Committee. The Committee's recommendation for the Railroad and Property Carrier Industry of Puerto Rico is hereby approved.

NO. 4 FOR ALL SHIPMENTS EXCEPT TRUCK

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 4, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The original petition requested the establishment of price classifications and minimum prices for coals of certain code members in District No. 4 for all shipments except truck and for truck ship-

to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That § 322.7 (Alphabetical list of code members) is amended by adding thereto Supplement R-I, § 322.9 (Special prices—(c) Railroad fuel) is amended by adding thereto Supplement R-II, and § 322.23 (General prices) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That the relief heretofore granted by the Memorandum Opinion and Order herein dated March 11, 1942, shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

ments. On January 27, 1942, 7 F.R. 996, the Acting Director issued an order granting temporary relief and conditionally providing for final relief for all mines involved except in so far as shipments by rail from Mine Index Nos. 2155, 2954 and 1244, 2968, 2969, 267, 827, 1270, 1271, and 1314 were concerned. By an Order of the Acting Director dated January 27, 1942, 7 F.R. 607, that portion of the petition dealing with the establishment of price classifications and minimum prices for rail shipments as well as the question of additional shipping points for those mines was separated from Docket No. A-1230 and designated Docket No. A-1230 Part II. Temporary price classifications and minimum prices were established for these mines for rail shipments from one of the shipping points requested by the District Board.

Pursuant to appropriate orders of the
District Board,
Acting Director and after due notice to

all interested persons a hearing was held before D. C. McCurtain, a duly designated Examiner of the Division at a hearing room of the Division in Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner, District Board 4, appeared. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned. That portion of the petition of District Board No. 4 involved herein requested the establishment of additional loading points for certain code members in District No. 4, for which the Division by its order dated January 27, 1942, had established temporary shipping points as follows:

Mine index No.	Mine name	Shipping points requested by District Board	Railroad	Shipping point heretofore granted

1271	Shuler	(Pomeroy, Ohio)	NYC	Hobson, Ohio.

In the case of the Black Hawk Mine (Mine Index No. 2155), the Harrison No. 2 Mine (Mine Index No. 2968), Harrison No. 3 Mine (Mine Index No. 2969), Shuler Mine (Mine Index No. 1271) and the Romine Mine (Mine Index No. 267) and the mine of A. R. Smith & Co. (Mine Index No. 1314), the representative of the District Board testified that a letter had been written to the producer by the Board requesting advice as to which shipping points was preferred in the event that only one was established by the Division. The witness testified that no reply was received and that in the absence of such reply, the District Board assumed that the shipping points designated by the Division for these mines in the order dated January 27, 1942, were satisfactory.

The witness further testified that in the case of Mine Index No. 2954, the

Carson Mine; Mine Index No. 1244, the James Darst Mine; and Mine Index No. 1270, the Charles Schuler Mine, the producers in reply to letters written by the District Board had advised that in the event only one shipping point was obtainable, they would prefer Pomeroy on the Chesapeake and Ohio, rather than Hobson on the New York Central. It appears that each of these producers employs M. L. French as its sales agent, and that this sales agent has a tippie at Pomeroy and facilities for screening.

The witness testified that the District Board had written the producer operating the Plummer Hill Mine, Mine Index No. 827, and in reply the producer advised that Shawnee, Ohio, on the New York Central Railroad was preferable as a loading point and the District Board believed that the establishment of Shaw-

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 324.7 (Alphabetical list of code members) is amended by adding thereto Supplement R-I, § 324.8 (Numerical list of mines) is amended by adding thereto Supplement R-II, § 324.2 (Seasonal discounts) is amended by adding thereto Supplement R-III, § 324.9 (Recapitulation of price classifications) is amended by adding thereto Supplement R-IV, and § 324.11 (Special prices—

nee would be satisfactory to this producer.

Upon the basis of the uncontroverted evidence I find that the establishment of additional rail shipping points for the coals of Mine Index Nos. 2155, 2954, 1244, 2968, 2969, 267, 827, 1270, 1271, and 1314, is not necessary in order to comply with the standards of sections 4 II (a) and (b) of the Act and to effectuate the purposes thereof.

I further find that the shipping points, price classifications and minimum prices already established for Mine Index Nos. 2155, 2968, 2969, 267, 1271, and 1314 are proper and should be established. In the case of Mine Index Nos. 2954, 1244, 827, and 1270, I find that the shipping points heretofore established should be changed as set forth below:

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 13

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows:

Commencing forthwith, § 333.6 (General prices) is amended by adding thereto Supplement B-I, § 333.7 (Special prices)—(a) Prices for shipment to all railroads and for exclusive use of railroads is amended by adding thereto Supplement R-II, § 333.7 (Special prices)—(c) Prices for shipment by rail-

road, applicable to all coal sold for steamship vessel fuel) is amended by adding thereto Supplement R-III, § 333.34 (General prices in cents per net ton for shipment to all market areas) is amended by adding thereto Supplement T-I, § 333.43 (General prices in cents per net ton for shipment to all market areas) is amended by adding thereto Supplement T-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein for the coals of the Seaboard Mine (Mine Index No. 1472) of A. R. Disney (Disney Coal Company) for all shipments except truck and for truck shipments, or as to the coals of Mine Index No. 1453 in Size Group 24 for all shipments except truck because price classifications and minimum prices for these coals have been heretofore established.

The original petition lists the Big 4 Mine of Lee Powell (Hillcrest Coal Company) as Mine Index No. 775. This would appear to be a typographical error as records of the Division indicate that Mine Index No. 755 is the correct number for this mine. It is listed herein accordingly.

The original petition lists Mine Index Nos. 331, 755, and 1454 as being in the Nunnally seam. Records of the Division indicate that Mine Index No. 331 is operating in the Lower Nunnally seam and that Mine Index Nos. 755 and 1454 are operating in the Upper Nunnally seam. The mines are listed herein accordingly.

The original petition lists the Pierce & Olive Mine (Mine Index No. 1470) of Pierce & Olive (J. G. Pierce) as operating in the Pratt seam. Records of the

Division indicate that this mine is operating in the Pratt-America seam. It is listed herein accordingly.

No relief is granted herein for the coals of the Brewer No. 2 Mine (Mine Index No. 1473) of Paul Isbell Coal Company for all shipments except truck and for truck shipments or for the coals of Mary Frances Mine (Mine Index No. 331), the Big 4 Mine (Mine Index No. 755) and the Mary Ann Mine (Mine Index No. 1454) of Lee Powell (Hillcrest Coal Co.) for railroad locomotive fuel use for the reasons appearing in the order separating that portion of Docket A-1330 relating to these coals from the rest of the Docket and designating it as Docket A-1330 Part II.

Dated: March 25, 1942.

PART 1148—CLOSURE ENAMEL

CONSERVATION ORDER M-116

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Enamel, as hereinafter defined, and of the materials entering therein, for defense, for private account and for export, and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1148.1 *Conservation Order M-116—*
(a) *Definitions.* For the purpose of this Order:

(1) "Enamel" means any organic protective coating, lacquer, or varnish containing tung, perilla or oiticica oils; phenolic, alkyd, vinyl, cellulose resins; or fossil gums or combinations thereof.

(2) "Closure" means any cap, crown, cover, lid or closure which is made of tinplate, terneplate, or blackplate, or any combination thereof, for sealing, closing or capping glass containers.

(4) "Terneplate" means blackplate coated on one or both sides with a lead-tin alloy.

(5) "Blackplate" means any sheet steel plate suitable for manufacture into a closure, and, for the purpose of this Order, shall also include any waste tinplate, terneplate, or scrap produced in the ordinary course of manufacturing closures out of tinplate or terneplate.

(b) *Prohibition of use of enamel.* No person shall hereafter manufacture or coat closures with enamel on the exterior surfaces thereof, where such closures are made of tinplate or terneplate; *Provided, however*, That the prohibitions and restrictions contained herein shall not prevent:

(1) The use of enamel as an exterior coating on closures where required to protect from damage and deterioration lithographed printing thereon used to designate contents or to label attached container or to indicate method of removing closure therefrom, where other means of such designation upon the container or upon the closure are impracticable; or

(2) The use of enamel to coat the exterior surface of closures made of electroplated tinned sheet, blackplate or of any untinned material; or

(3) The use of enamel as an exterior coating on closures for containers of food products for human consumption where

such closures are heat sterilized before or after application to the container and such enamel is required to prevent corrosion; or

(4) The manufacture, use or sale of closures which were coated with enamel prior to the effective date of this Order or the use in the manufacture of closures of materials, including tinplate and terneplate sheets, which were coated with enamel prior to said date.

(c) *Prohibition of sale of enamel and purchase of closures.* No person shall hereafter sell or deliver enamel to any person if he knows or has reason to believe that such enamel is to be used in violation of paragraph (b) hereof, nor shall any packer purchase or accept delivery of closures which he knows or has reason to believe were manufactured in violation of said paragraph (b).

(d) *Further conservation of enamel.* All persons concerned with the manufacture of closures and packaging shall use their best efforts to effectuate conservation of materials by reducing the dry film weight of enamel coating upon the interior and exterior metal surfaces of closures, where control of such weight is practicable, to nine-tenths of the weight considered standard practice in the closure and metal cap manufacturing industry in 1940, or less where practicable.

(e) *Miscellaneous provisions—*(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Violations or false statements.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(3) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of enamel conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations by addressing a letter to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M-116, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

Chapter XI—Office of Price Administration

PART 1314—RAW MATERIALS FOR SHOES
AND LEATHER PRODUCTSREVISED PRICE SCHEDULE NO. 61,¹ AS
AMENDED—LEATHER

A statement of the considerations involved in the issuance of Revised Price Schedule No. 61, as amended—Leather has been prepared and is issued simultaneously herewith.²

The preamble and §§ 1314.51 to 1314.60, inclusive, are renumbered and amended to read as follows:

The declaration by the Congress of the United States that a state of war exists between this country and the Axis nations makes it imperative that immediate steps be taken to protect the civilian population against increases in the cost of shoes and other leather products. Hostilities in the Pacific have raised the possibility of decreased supplies of imported

hides and skins. At the same time there is every likelihood of an increase in the leather requirements of the armed forces of the United States, and of an increase in the quantities of leather and of leather raw materials to be furnished to those who are now our allies. This combination of circumstances, unless forestalled, would result in a bidding up of the prices of leather and leather products, which in time would substantially increase the cost of living of the civilian consumer, and at the same time increase the direct cost of the war effort. As a measure of public interest it becomes necessary to establish maximum prices for leather.

AUTHORITY: §§ 1314.51 to 1314.63, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1314.51 *Maximum prices for leather.*

(a) On and after April 9, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver, and no person shall buy or receive leather in the course of trade or business, at prices higher than the maximum prices established herein; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of leather made pursuant to contracts entered into prior to December 29, 1941.

(b) Except as provided in paragraphs (c) and (d) of this section, the maximum prices for leather shall be:

(1) The highest price contracted for or received by the seller for the sale or delivery during the period between November 6, 1941 and December 6, 1941, inclusive, of leather of the same type, quality and grade to a purchaser of the same general class, or

(2) If during said period no such sale or delivery was made, a price in line with the maximum prices for related types, qualities and grades of leather determined in accordance with subparagraph (1) of this paragraph:

Provided, That in all cases, including cases where the seller had no sales of the same or related types, qualities and grades during said period, the maximum price shall be in line with the general level of prices of leather prevailing during the period between November 6, 1941 and December 6, 1941, inclusive, giving consideration to the relative market value of each type, quality and grade of leather and to the class of purchaser to whom sold.

(c) The maximum prices for leather sold by jobbers, wholesalers or dealers shall be the maximum prices determined in accordance with paragraph (b) of this section, or, at the option of the jobber, wholesaler, or dealer, the sum of (1) the actual price paid for the leather, (2) transportation charges thereon actually paid to a common carrier, and (3) a markup of 1 cent per pound or per square foot of leather or per pair of cut soles

or 5 per cent of the actual price paid for the leather by the seller, whichever is greater: *Provided*, (i) That this optional maximum price may not be charged for leather tanned by, or for the account of, the seller or an agent of the seller and (ii) That in all cases where this optional maximum is charged, the seller shall keep records which show separately the price paid for the leather, the transportation charges so paid, and the markup.

(d) The maximum price for leather sold for export shall be determined in the same manner as the maximum price for a comparable domestic sale, in accordance with paragraphs (b) and (c) of this section, except that when it is customary to add a markup over such comparable domestic sale, the maximum price may be increased by an amount not in excess of the customary markup over the domestic sales price for the sale or delivery of a similar type, grade, quality and quantity to the same or comparable foreign market and to a purchaser of the same general class.

§ 1314.52 *Premiums to cover increases in war risk and marine insurance costs.* In addition to the maximum price for any type or grade of leather established by this Revised Price Schedule No. 61, as amended, an amount may be added by the seller as set forth below:

(a) The seller shall determine (1) the invoice cost of each class¹ of hides and skins, including rough tanned unfinished hides and skins, whether imported or domestic, received at his tanneries and warehouses during the three months ending on the 25th day of the month preceding the date the sale or contract of sale is made and (2) the percentage of such amount actually paid² for war risk and marine insurance on each such class. For each 2 per cent of the total invoice cost so paid for war risk and marine insurance over 2 per cent of the total invoice cost of such class of hides and skins received during said preceding three months, an amount equal to 1 per cent of the maximum price may be added: *Provided*, That (i) in no case shall a tanner include in his determination of the cost of insurance the cost of insuring any hides or skins at more than 125 per cent of the purchase price thereof, and (ii) where a seller's maximum price is so increased, the invoice or similar document delivered to the

¹ The term class includes any type of hides or skins which are separately identified in the finished leather sold.

² (a) If the hides or skins are already covered by war risk and marine insurance when purchased, the amount actually paid therefor by the insured may be used by the tanner in computing the maximum prices: *Provided*, That the tanner obtains from the insured and keeps in his permanent records a sworn statement of such amount actually paid on the hides or skins so purchased. (b) If the hides and skins are insured by the tanner, rather than by a licensed marine insurance company, the amount of cost attributed to such self-insurance may be used: *Provided*, That such amount shall not exceed the lowest available rate offered commercially by a licensed marine insurance company for the insurance of the hides or skins at not more than 125 per cent of the purchase price.

purchaser shall show separately the amount of such increases.

§ 1314.53 *Approval of sellers' lists by the Office of Price Administration.* Any seller may submit to the Office of Price Administration for approval as in conformity with § 1314.51 a list of maximum prices for all types, qualities and grades of leather. In cases where a seller of leather has received from the Office of Price Administration an approved maximum price list deemed by the Office of Price Administration to be in conformity with the maximum prices established by this Revised Price Schedule No. 61, as amended, the prices set forth in such approved list shall for all purposes be deemed to constitute specific maximum prices for such seller, subject to such limitations as may be imposed by the Office of Price Administration in granting approval: *Provided*, That a seller who has received an approved maximum price list from the Office of Price Administration who thereafter changes the type, grade or quality of his leather by alteration of the type of raw stock, method of tanning, trim, pattern, standard of selection or other established practice, or who adds to his line of leathers types, grades and qualities not covered by the approved price list, shall report such changes to the Office of Price Administration and secure approval of a revised maximum price list before any such new type, grade or quality of leather is sold.

§ 1314.54 *Exempt sales.* Sales at retail, sales of chamois, ostrich, reptile and aquatic leathers, and sales to persons engaged in the businesses of repairing shoes or harness are excepted from the operation of this Revised Price Schedule No. 61, as amended.

§ 1314.55 *Less than maximum prices.* Lower prices than those established by this Revised Price Schedule No. 61, as amended, may be charged, demanded, paid or offered.

§ 1314.56 *Conditional agreements.* No seller or purchaser of leather shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by this Revised Price Schedule No. 61, as amended, in the event that this Schedule is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of a petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1314.57 *Evasion.* The price limitations set forth in this Revised Price Schedule No. 61, as amended, shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to leather, alone or in conjunction with any other commodity or by way of commis-

sion, service, transportation, or other charge, or discount premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

Specifically, but not exclusively, the following practices are prohibited: up-grading, changing customary standards of grading and selection or in any way manipulating styles and grades so as to enable the seller to secure a greater net return than would have been secured had established grading and tanning practices been continued.

§ 1314.58 *Records and reports.* (a) Every person making a purchase or sale of leather in the course of trade or business, or otherwise dealing therein, after December 29, 1941, shall keep for inspection by the Office of Price Administration for a period of not less than two years, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price contracted for or received, the quantity and a description of each type, quality, style, grade and weight of leather sold.

(b) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require.

§ 1314.59 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule No. 61, as amended, are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 61, as amended, or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1314.60 *Petition for amendment.* Persons seeking any modification of this Revised Price Schedule No. 61, as amended, or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1 (§§ 1300.1, 1300.56) issued by the Office of Price Administration.

§ 1314.61 *Definitions.* When used in Revised Price Schedule No. 61, as amended, the term:

(a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 4 TO REVISED TIRE RATIONING REGULATIONS—TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

Section 1315.803 (b) (3) is amended to read as follows; and two new sections, §§ 1315.503a and 1315.805b, are added, as set forth below:

Retreaded and Recapped Tires and New Passenger Tires of an Obsolete Type for Vehicles Eligible Under List B

§ 1315.503a *Eligibility of list B vehicles for tubes.* (a) Anything in these Revised Regulations to the contrary notwithstanding, the Board shall accept applications from, and may issue certificates for new tubes, within the limits of its applicable quotas, to:

(1) Applicants who own, operate or control passenger automobiles which are eligible under § 1315.504 (a), subject to the terms and conditions specified in §§ 1315.501, 1315.603 (b), 1315.606 and 1315.610 (c), for the issuance of certificates for retreaded or recapped tires, or retreading or recapping services;

(2) Applicants who own, operate or control trucks eligible under § 1315.504 (b), subject to the terms and conditions specified in §§ 1315.502, 1315.603 (c), 1315.606 and 1315.610 (d), for the issuance of certificates for retreaded or recapped tires, or retreading or recapping services.

(b) In cases where the Board authorizes an applicant eligible under § 1315.504 (List B) to purchase tubes, the Board shall immediately issue to such applicant, not in excess of its applicable quota for the entire month, a non-transferable certificate for the purchase of tubes only, on O.P.A. Form No. R-2.

Transfers and Deliveries of New Tires and Tubes, Retreaded or Recapped Tires, and Camelback

§ 1315.803 *Permitted and prohibited deliveries of camelback.*

(b) (3) On and after February 19, 1942, no person shall consume or use truck type camelback, as defined by specification established from time to time by the War Production Board, in recapping or retreading passenger-type tires to be mounted on passenger automobiles.

No person shall use passenger-type camelback in retreading or recapping a tire to be mounted on a truck or bus.

§ 1315.805b *Certificate for initial allotment of passenger-type camelback for retreaders or recappers—*(a) *Application for authority to purchase initial allotment of passenger-type camelback.* Any person engaged in retreading or recapping tires who is not a maker of camelback may apply on or before April 30, 1942, to the Board which services the area in which his principal office is located for authority to purchase an initial allotment of passenger type camelback. No other Board shall have jurisdiction and only one application may be filed. Each person engaged in retreading or recapping tires who is not a maker of camelback may be authorized to purchase sufficient passenger-type camelback to enable him to have as of March 23, 1942, an initial inventory of passenger-type camelback equivalent to 500 pounds of passenger-type camelback for each mold or curing table, which he owns or operates, capable of retreading tires smaller than 7.50-20.

(b) *Form of application.* Applications for authority to purchase an initial allotment of passenger type camelback must be made on O.P.A. Form No. R-23. This form may be obtained from any Board. The applicant must state the number and location of all molds or curing tables owned, operated, or controlled by him capable of retreading or recapping only tires smaller than 7.50-20 and also the number and location of all molds or curing tables owned, operated, or controlled by him which are capable of retreading a tire 7.50-20 or larger. He must state the total number of pounds of passenger type camelback which he had in his inventory as of midnight March 22, 1942, irrespective of where located. If this inventory does not equal or exceed 500 pounds for each mold or curing table capable of retreading or recapping tires smaller than 7.50-20, he will be authorized to purchase an amount of passenger type camelback equal to the difference between his inventory and an amount equal to 500 pounds for each mold or curing table capable of retreading a tire smaller than 7.50-20. He may purchase only passenger type camelback. Passenger camelback means passenger type camelback as defined by specifications established from time to time by the War Production Board.

The applicant shall certify the facts stated in the application in the manner and form provided for such certification. In making the application and executing the certification he shall conform to the requirements of § 1315.605 of these Revised Regulations.

(c) *Action by the Board.* Upon receiving an application by a retreader or recapper who is not a maker of camelback for authorization to purchase an initial allotment of passenger type camelback, the Board shall satisfy itself that the applicant has properly executed his application including all the agreements therein contained and that all the facts stated in the application are true.

¹ 7 F.R. 1307.

² Filed with the Division of the Federal Register; requests for copies should be addressed to the Office of Price Administration.

If the Board is satisfied that the applicant did not have in his inventory as of midnight March 22, 1942, 500 pounds of passenger type camelback for each mold or curing table owned, operated, or controlled by him which is capable of retreading a tire smaller than 7.50-20, it shall issue the applicant a certificate authorizing him to purchase the difference between all the passenger type camelback in his possession as of midnight March 22, 1942, and an amount equal to 500 pounds of passenger type camelback for each mold or curing table owned, operated, or controlled by him which is capable of retreading a tire smaller than 7.50-20. If the Board determines that an application should be granted either wholly or in part, it shall note upon such application the amount of passenger type camelback which the applicant was authorized to purchase and the serial number of the certificate issued. After acting upon the application the Board shall notify the applicant of its decision. In cases where the Board authorizes an applicant to purchase an initial allotment of passenger type camelback, the Board shall immediately issue to such applicant a certificate.

(d) *Form of certificate.* The certificate for the purchase of an initial allotment of passenger type camelback is O.F.A. Form No. R-10. The certificate shall be serially numbered and shall be divided into two parts designated as part A and part B bearing the same serial number. If the person supplying the retreader or recapper is a maker of camelback he shall retain part A as a record of the transaction. If the person supplying the retreader or recapper is not a maker of camelback he may use part A as a basis for replenishing his stock. Part B of the certificate is to be forwarded by the supplier of camelback to the Board which issued the certificate.

(e) *Execution by issuing Board.* It shall be the responsibility of the Board prior to issuing a certificate to fill in part A of the certificate setting forth the date issued, the number and address of the Board issuing the certificate, the number of pounds of passenger type camelback which the certificate holder is authorized to purchase and the name and address of the purchaser. It shall also be the responsibility of the Board to indicate on part B of the certificate the number and address of the Board issuing the certificate. No certificate for the purchase of passenger-type camelback will be valid until part A is signed by two members of the issuing Board. The Board shall then deliver the entire certificate to the applicant or his agent.

(f) *Action by purchaser.* Upon receiving the completed certificate the applicant may at any time prior to June 1, 1942, purchase the number of pounds and type of passenger camelback indicated upon such certificate from any supplier of camelback. To purchase passenger-type camelback the applicant must present the entire certificate to his supplier. If the purchaser is unable to buy from one supplier all the passenger-type camelback which he has been authorized to purchase, he may return the

certificate to the issuing Board and the Board shall thereupon issue as many certificates as are necessary to permit his purchases to be made among several suppliers.

(g) *Action by supplier.* Prior to delivering or shipping any passenger-type camelback pursuant to a certificate surrendered to him, the supplier must complete part B of the certificate. Part B must then be detached and returned to the issuing Board within five days after shipment of the passenger-type camelback to the purchaser. If the supplier is a maker of camelback, part A must be retained as his record of the transaction. If the supplier is not a maker of camelback, he may use part A as the basis for replenishing his stock of passenger-type camelback pursuant to paragraph (c) of § 1315.803 of these Revised Regulations. This purchase of passenger-type camelback must be completed prior to midnight of May 31, 1942.

§ 1315.1199a *Effective dates of amendments.*

(d) Amendment No. 4 (§§ 1315.503a, 1315.803 and 1315.805b) to Revised Tire Rationing Regulations shall become effective April 10, 1942. (Pub. Law 421, 77th Cong., OPM Supp. Order No. M-15c, WPB Directive No. 1, Supp. Directive No. 1B, 6 F.R. 6792; 7 F.R. 562, 925).

PART 1370—ELECTRICAL APPLIANCES

TEMPORARY MAXIMUM PRICE REGULATION NO. 18—DOMESTIC ELECTRICAL APPLIANCES

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for household electrical appliances the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 18 is hereby issued.

AUTHORITY: §§ 1370.51 to 1370.61, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1370.51 *Maximum prices for domestic electrical appliances.* (a) On and after April 7, 1942, to and including June 5, 1942, regardless of any contract, agreement, lease, or other obligation, no persons shall sell or deliver domestic electrical appliances at prices higher than the maximum prices established herein; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of domestic electrical appliances to a purchaser if, prior to April 7, 1942, such appliances had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The maximum price for any domestic electrical appliance shall be the highest net price, exclusive of federal excise tax, for which an appliance of the same make and model was sold or contracted to be sold, on March 30, 1942, by the manufacturer, wholesaler, dealer, or other seller, to a purchaser of the same general class. In the event that there was no such sale, the maximum price shall be the highest net price for which an appliance of the same make and model was sold, or contracted to be sold, by the same seller, on the nearest preceding date on which such a sale was made, to a purchaser of the same general class.

(c) There may be added to the maximum price established by this Temporary Maximum Price Regulation No. 18 the amount of tax levied by any State or municipal sales, gross receipts, gross proceeds, or compensating use tax statute or ordinance, under which the tax is measured by gross proceeds or units of sale, if, but only if, (1) such statute or ordinance requires the vendor to state the tax, separately from the purchase price paid by the purchaser, consumer, or user, on the bill, sales check, or evidence of sale, at the time of the transaction; or (2) such statute or ordinance

requires such tax to be separately paid by the purchaser, consumer or user with tokens or other media of State or municipal tax payment; or (3) such a statute or ordinance permits the vendor to state such tax separately, and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this provision shall in no event exceed that paid by the purchaser, consumer, or user.

§ 1370.52 *Less than maximum prices.* Lower prices than those set forth in this Temporary Maximum Price Regulation No. 18 may be charged, demanded, paid, or offered.

§ 1370.53 *Conditional agreements.* No seller of domestic electrical appliances shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Temporary Maximum Price Regulation No. 18 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That, if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1370.54 *Evasion.* (a) The price limitations set forth in this Temporary Maximum Price Regulation No. 18 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to domestic electrical appliances, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, quantity or other purchase discounts, or allowances for or absorption of transportation costs, below those available or in effect on March 30, 1942, for a purchaser of the same general class.

(2) Increasing charges for repair service, in connection with the sale of an appliance, above those available or in effect on March 30, 1942, for a purchaser of the same general class.

(3) Failing to give or shortening the effective period of guarantee or warranty of performance, or of repair service, available or in effect on March 30, 1942, for a purchaser of the same general class.

(4) Incorrectly representing any portion of the price as constituting the federal excise tax.

(5) Increasing charges for deferred payment, or for any other form of installment, or time payment or credit ac-

count above those available or in effect on March 30, 1942, for a purchaser of the same general class.

§ 1370.55 *New models.* (a) No manufacturer shall sell or deliver any new model of domestic electrical appliance until the maximum price for such model shall have been approved in writing by the Office of Price Administration.

PART 1409—PLUMBING EQUIPMENT AND SUPPLIES

TEMPORARY MAXIMUM PRICE REGULATION NO. 17—PLUMBING FIXTURES

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for plumbing fixtures the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 17 is hereby issued.

AUTHORITY: §§ 1409.1 to 1409.10, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1409.1 *Maximum prices for plumbing fixtures.* (a) On and after April 7, 1942, to and including June 5, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver plumbing fixtures, except on an installed basis, and no person shall buy or receive plumbing fixtures in the course of trade or business, except on an installed basis, at prices higher than the maximum prices established in this section; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of plumbing fixtures to a purchaser if prior to April 7, 1942, such plumbing fixtures had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The maximum price for any plumbing fixture shall be such that the cost to the purchaser is not in excess of what it was or would have been to such purchaser on March 30, 1942 (upon the basis of the prices, trade, quantity and cash discounts, charges, deposits, and allowances, whether published or unpublished, then listed or quoted by the seller, and upon the basis of the freight and delivery practices recognized by the seller on March 30, 1942), for like quantities, types, kinds, shapes, sizes, or colors of plumbing fixtures.

§ 1409.2 *Less than maximum prices.* Lower prices than those set forth in

§ 1409.1 hereof may be charged, demanded, paid, or offered.

§ 1409.3 *Conditional agreements.* No seller of plumbing fixtures shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1409.1 in the event that this Temporary Maximum Price Regulation No. 17 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1409.4 *Evasion.* The price limitations set forth in this Temporary Maximum Price Regulation No. 17 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, or delivery of or relating to plumbing fixtures, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

Pursuant to the President's letter of May 28, 1941, establishing the Office of

Petroleum Coordinator for National Defense, §§ 1500.22 to 1500.29, inclusive, of this chapter (Recommendation No. 33, dated February 6, 1942, as amended March 4, 1942) are hereby amended to read as follows:

AUTHORITY: §§ 1500.22 to 1500.29, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1500.22 *Designation of special subcommittees, statistical information.* When the General Committee for any District of the Office of Petroleum Coordinator for National Defense shall find that a problem of petroleum supply or distribution exists which affects two or more of the natural divisions of the industry and therefore does not fall entirely within the jurisdiction of a single district functional committee, or affects two or more of the districts and therefore does not fall entirely within the jurisdiction of a single district, and shall further find that, for these reasons, it is necessary or desirable to designate subcommittees to analyze facts concerning the problem and to devise and carry into effect plans for the solution of the problem, then the Chairman of the General Committee shall, with the approval of the General Committee and of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, designate such subcommittee with a title descriptive of the functions it is to perform and the area in which it is to operate. Any such subcommittee may be organized as a subcommittee of the District General Committee, or as a joint subcommittee so designated by the Chairmen of the General Committee for the two or more districts. Each subcommittee so designated, and other committees and subcommittees referred to in § 1500.23 of this chapter, shall obtain, analyze, and keep current all pertinent and available facts, figures and other data with respect to the available supplies of and the demand for petroleum and petroleum products in the area for which it is designated and with respect to transportation facilities in, to, and from said area, and the information obtained by each such committee or subcommittee shall be furnished currently to any other committees or subcommittees so designated or authorized to function pursuant to §§ 1500.22 to 1500.29, inclusive, of this chapter.

§ 1500.23 *Plans.* Any subcommittee designated pursuant to § 1500.22 of this chapter, any general or functional committee designated for any District under authority of the Petroleum Coordinator for National Defense, and any other committee or subcommittee so directed by the Petroleum Coordinator for National Defense or by the Deputy Petroleum Coordinator, shall devise and submit, with the approval of the District General Committee or District General Committees involved, to the Chief Counsel of the Office of Petroleum Coordinator for National Defense, from time to time as may be necessary or advisable, plans designed to facilitate and assure the distribution of supplies of petroleum and petroleum products available to the area designated in any such plan, to

meet in such area and in the order of statement, the needs of (1) the military forces of the United States, (2) the war industries, (3) the essential civilian requirements, and (4) other reasonable civilian requirements.

Any plan prepared pursuant to this section may, without limitation as to other necessary or appropriate provisions:

(a) Analyze and determine the amounts of petroleum and petroleum products and the transportation facilities available to the area involved to meet the needs hereinabove described in such area;

(b) Provide for the exchange, loan, sale, lease, or pooling of petroleum products and of the physical facilities for the production, refining, transportation, and distribution thereof wherever and to whatever extent may be necessary to supply in the area involved the amounts of petroleum and petroleum products prescribed pursuant to paragraph (a) of this section.

§ 1500.24 *Effectuating plans.* The committees and subcommittees referred to in § 1500.23 of this chapter and all persons affected by any plan formulated in accordance with said section shall, upon the approval of any such plan by the Chief Counsel of the Office of Petroleum Coordinator for National Defense and pursuant to the direction of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, carry into effect such plan according to its terms, conditions and intent.

§ 1500.25 *Sale, exchange, and loan of petroleum products under emergency conditions.* In cases of an emergency character which may arise pending approval of appropriate plans pursuant to § 1500.23 of this chapter or which may not be adequately provided for under any such plan, any committee or subcommittee referred to in § 1500.23 of this chapter or the executive secretary of such committee or subcommittee shall, subject to the direction of the appropriate district director of the Office of Petroleum Coordinator for National Defense, coordinate and arrange for the sale, exchange, or loan of petroleum and petroleum products among the various operators in the area wherein such committee or subcommittee is authorized to function to accomplish the objectives of §§ 1500.22 to 1500.29, inclusive, of this chapter.

§ 1500.26 *Distribution and division of available petroleum.* Sales, exchanges, and loans of petroleum and petroleum products among the several operators pursuant to § 1500.25 of this chapter shall be made in such manner, at such times, and in such amounts, as will result in the most efficient method of assuring a continuous supply of petroleum and petroleum products to meet war, defense, and essential civilian demands as they arise, and at the same time, so far as is not inconsistent therewith, will provide equal treatment for all operators affected thereby. The operators affected thereby shall comply with such arrangements and shall carry into effect such sales, ex-

changes, or loans of petroleum and petroleum products. The appropriate district director of each district shall promptly submit to the Chief Counsel of the Office of Petroleum Coordinator for National Defense a full report on any action taken under the provisions of § 1500.25 of this chapter.

§ 1500.27 *Meetings.* Meetings of the committees and subcommittees referred to in § 1500.23 of this chapter may be held from time to time for the purpose of preparing plans in the manner provided in § 1500.23 and meetings of the said committees and subcommittees, and other persons who may be affected, may be held from time to time for the purpose of effectuating the provisions of §§ 1500.25 and 1500.26 of this chapter. The said committees and subcommittees, and persons affected may, after receipt of approval of any of the aforesaid plans by the Chief Counsel of the Office of Petroleum Coordinator for National Defense and of the direction of the Petroleum Coordinator or Deputy Petroleum Coordinator to carry such plan into effect, meet from time to time for the purpose of doing all things necessary to carry into effect any such plan in accordance with the purposes of §§ 1500.22 to 1500.29, inclusive, of this chapter.

In carrying out their duties, responsibilities and functions, the committees and subcommittees referred to in § 1500.23 of this chapter shall consult with the other affected committees and subcommittees in their respective Districts and with affected committees and subcommittees in other Districts to the extent that proposals or activities hereunder may affect such other Districts, and to this end all such other committees and subcommittees shall supply such information, material and assistance as may be necessary and desirable to carry into effect the purposes and intent hereof.

§ 1500.28 *Administration.* The committees and subcommittees referred to in § 1500.23 of this chapter may maintain such staff and appoint such persons as they find necessary to carry out their duties, responsibilities and functions. Operating expenses shall be met as provided in § 1500.7 (j) of this chapter.

§ 1500.29 *Conflicting provisions.* The provisions of §§ 1500.22 to 1500.28, inclusive, of this chapter shall supersede and cancel other sections of this chapter to the extent that there is any conflict therewith.

[Recommendation No. 43]

PART 1500—ADMINISTRATIVE; GENERAL
SUBCOMMITTEE FOR SUPPLY AND DISTRIBUTION

To the General Committee for District Three, the Supply and Distribution Subcommittee for District Three, and to all persons, natural or artificial, owning, operating, chartering tankers or otherwise utilizing tanker space in District Three, or supplying petroleum or petroleum products for transportation in such tankers, or otherwise engaged in the petroleum industry in District Three:

The diversion for war and other essential purposes of a part of the American tanker fleet normally employed in transporting petroleum and petroleum products between points in District Three and from points within to points outside of District Three, and the loss through war action of other tankers of that fleet, has resulted in a shortage of tanker tonnage available for such service. Because of the exigencies of war-

fare, the efficiency of operation of the tankers remaining in this service has been reduced and the regularity of sailing schedules has been impaired. These factors threaten, unless averted, to result in an excess of petroleum and petroleum products in District Three beyond the capacity of existing facilities either to store, transport or consume them and in consequence to cause serious economic dislocations throughout the petroleum industry in District Three and the shut-down of fields and refineries producing products essential to the war program.

It is imperative in the national interest that all possible steps be taken which will ameliorate this situation and render the effects of such transportation shortage less acute and, in so far as it is not inconsistent therewith, to provide equitable sharing of the outlet for petroleum and petroleum products provided by the available tanker tonnage among all affected units of the petroleum industry.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1500.33 to 1500.38, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1500.33 *Appointment of Supply and Distribution Subcommittee.* A Supply and Distribution Subcommittee shall be designated by the General Committee for District Three, the membership of which shall be subject to the approval of the Petroleum Coordinator for National Defense or to the Deputy Petroleum Coordinator, to execute and administer the provisions of any approved plan prepared pursuant to the provisions of § 1500.34 of this chapter.

§ 1500.34 *Plans.* The Supply and Distribution Subcommittee shall obtain and analyze all pertinent and available facts, figures and other data with respect to the operation and utilization of tankers in District Three to transport petroleum and petroleum products between points in District Three and from points within to points outside of District Three, including facts, figures and other data with respect to the past and present utilization by specific persons, natural or artificial, of tanker tonnage for such purposes. The Supply and Distribution Subcommittee shall also obtain and analyze such pertinent and available facts, figures and other data with respect to the production, refining, transportation and storage of petroleum and petroleum products in District Three as may be necessary in connection with its functions hereunder, including without limitation information from the various refiners in District Three showing the nature and types of war materials and supplies produced, the available storage capacity, inventories of petroleum and petroleum products, and expected movements of petroleum and petroleum products, and, based upon such information, shall prepare a plan or plans for submission to the Chief Counsel of the Office of Petroleum Coordinator for National Defense which

will minimize the adverse effect upon the war program of the shortage of tanker transportation in and from District Three, and any such plan may, among other things, provide for the pooling of storage, pooling of transportation facilities, and the equitable access among all persons, natural or artificial, affected, to the tanker tonnage available for the transportation of petroleum and petroleum products in and from District Three. Any such plan shall provide specifically for administration of such plan by either the Supply and Distribution Subcommittee or, if appropriate, by any one or more of the functional committees or subcommittees established by or with the approval of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator.

§ 1500.35 *Sale, exchange, loan, transportation and storage of petroleum products under emergency conditions.* In cases of an emergency character which may arise pending approval of appropriate plans pursuant to § 1500.34 of this chapter, or which may not be adequately provided for under any such plan, the Supply and Distribution Subcommittee or the executive secretary of that subcommittee shall, subject to the direction of the Director of Petroleum Supply of the Office of Petroleum Coordinator for National Defense, coordinate and arrange for the sale, exchange, loan, transportation or storage of petroleum and petroleum products among the various operators in said area to accomplish the objectives of §§ 1500.33 to 1500.38, inclusive, of this chapter.

The said Subcommittees, representatives and persons may, upon the approval of any plan by the Chief Counsel of the Office of Petroleum Coordinator for National Defense, meet from time to time for the purpose of doing all things necessary to carry into effect any such plan in accordance with the Provisions of §§ 1500.33 to 1500.38, inclusive, of this chapter.

§ 1500.37 *Effectuating plans.* The Supply and Distribution Subcommittee and all persons, natural or artificial, affected by any plan formulated in accordance with § 1500.34 of this chapter shall, upon the approval of any such plan by the Chief Counsel of the Office of Petroleum Coordinator for National Defense, and pursuant to the direction of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, carry into effect such plan according to its terms, conditions and intent.

§ 1500.38 *Administration.* In carrying out the duties, responsibilities and functions under §§ 1500.33 to 1500.38, in-

clusive, of this chapter, and any approved plan authorized herein, the Supply and Distribution Subcommittee shall consult and maintain liaison with the other committees and subcommittees in District Three and with the committees and subcommittees in the other Districts, particularly the Tanker Managing Subcommittee for District One, to the extent that plans or activities hereunder may affect such other Districts, and to this end, all such committees and subcommittees shall supply the Supply and Distribution Subcommittee with such information, material and assistance as may be necessary and desirable to carry into effect the provisions of §§ 1500.33 to 1500.38, inclusive, of this chapter. The Supply and Distribution Subcommittee shall maintain such staff and appoint such persons as it finds necessary to carry out its duties, responsibilities and functions under this Recommendation. TITLE 46—SHIPPING

Chapter II—Coast Guard: Inspection and Navigation

PART 36—LICENSED OFFICERS AND CERTIFICATED MEN

Section 36.1-1 *Original licenses—T/ALL* is amended by the deletion of paragraph (d); by relettering paragraphs (e) and (f) as (f) and (g) respectively; and by the insertion immediately following paragraph (c) of the following paragraphs lettered (d) and (e):

§ 36.1-1 *Original licenses—T/ALL.*

(d) No license shall be issued to any person who is not a citizen of the United States, either native-born or fully naturalized.

(e) An applicant claiming to be a citizen of the United States shall furnish

satisfactory evidence of such citizenship to the Local Inspectors. Acceptable evidence of citizenship is described below in the order of its desirability:

(1) Birth certificate or certified copy.
(2) Naturalized citizens must present a Certificate of Naturalization.

(3) Baptismal certificate or parish record recorded within one year after birth.

(4) Statement of a practicing physician certifying that he attended the birth and that he has a record in his possession showing the date on which it occurred.

(5) State Department passport.

(6) An active commission in the United States Army, Navy, Marine Corps, Coast Guard, or the reserve components thereof.

(7) A continuous discharge book or certificate of identification issued by the Coast Guard which shows that the holder is an American citizen, or a continuous discharge book or certificate of identification issued by the former Bureau of Marine Inspection and Navigation which shows the holder as an American citizen, provided that the records of that Bureau indicate that the holder of such continuous discharge book or certificate of identification produced satisfactory evidence of his citizenship at the time of the issuance of the same.

(8) Delayed certificates of birth. The Department of Commerce, on July 16, 1941, issued a "Manual of Uniform Procedure for the Delayed Registration of Births" which, it was hoped, would be adopted and followed by the bureaus of vital statistics in the States.¹ If an applicant claiming to be a citizen of the United States submits a delayed certificate of birth which has been issued in accordance with the procedure outlined in the Manual of Uniform Procedure for the Delayed Registration of Births, and recites on its face the evidence upon which it has been granted, it may be accepted as prima facie evidence of citizenship in the absence of any collateral facts indicating fraud in its procurement. It should be borne in mind that, in order to receive consideration as a delayed certificate of birth, the certificate must have been issued strictly in accordance with the provisions of the Manual above referred to. Any delayed birth certificate not so issued will be given consideration, but will not necessarily be considered prima facie evidence of citizenship.

(9) If no one of the foregoing requirements can be met by the applicant, he should make a statement to that effect, and in an attempt to establish citizenship, he may submit for consideration data of the following character:

(i) Report of the Census Bureau showing the earliest record of age or birth available. Request for such information should be addressed to the Director of the Census, Washington, D. C. In making such request, definite information must be furnished the Census Bureau as to the place when the first census was taken after birth of the applicant, giving the name of the street and number of the

house, or the names of the cross streets between which the house was located if residing in a city; or the name of the town, township, precinct, magisterial district, militia district, beat or election district, if residing in the country; also the names of parents, or the names of other persons with whom residing on the dates specified.

NOTE: A census was taken in the following years: June 1, 1860, 1870, 1880, and 1900; April 15, 1910; January 1, 1920; and April 1, 1930. (Records for 1890 are not available).

(ii) Affidavits of parents, or relatives; or affidavits by two or more responsible citizens of the United States stating facts of which they have knowledge tending to establish applicant's citizenship; school records; immigration records; or insurance policies.

For the convenience of applicants there is listed below the State custodians of records of vital statistics. This is not a complete list of offices from which birth certificates may be secured, but is confined to such offices established by State governments. In many States, birth records are maintained also by county clerks, clerks of county courts, and/or city clerks, or town clerks. If a State record is not available, inquiry should be made of the county, city, or town clerk. The year below at the right indicates the date of the earliest available record.

Paragraph (k) of § 138.1 *General provisions* is amended to read as follows:

§ 138.1 General provisions.

(k) Acceptable evidence of citizenship is described below in the order of its desirability:

(1) Birth certificate or certified copy.
(2) Naturalized citizens must present a Certificate of Naturalization.

(3) Baptismal certificate or parish record recorded within one year after birth.

(4) Statement of a practicing physician certifying that he attended the birth and that he has a record in his possession showing the date on which it occurred.

(5) State Department passport.

(6) An active commission in the United States Army, Navy, Marine Corps, Coast Guard, or the reserve components thereof.

(7) A license as master, mate, engineer or pilot issued by the Coast Guard, or a license as master, mate, engineer or pilot issued by the former Bureau of Marine Inspection and Navigation when such license shows on the back thereof that satisfactory evidence of citizenship of the holder was produced at the time of the issuance of such license.

(8) Delayed Certificates of Birth. (See § 36.1-1-(e) (8) of this chapter, which is identical with this paragraph.)

(9) If no one of the foregoing requirements can be met by the applicant, he should make a statement to that effect, and in an attempt to establish citizenship, he may submit for consideration data of the character set forth in § 36.1-1 (a) (9) of this chapter. U. S. Shipping Commissioners and U. S. Local Inspectors must be satisfied as to the bona fides of all evidence of citizenship presented, and may reject any evidence that they have reason to believe is not authentic. If an applicant is unable to present acceptable evidence of citizenship, question marks shall be placed to the right of the spaces entitled "Place of Birth" and "Nationality", as they appear in a continuous discharge book or on a certificate of identification. Such question marks will indicate to interested parties that the holder of the continuous discharge book or certificate of identification has not satisfactorily established his citizenship. Any seaman who has been issued a continuous discharge book or certificate of identification containing question marks may at any time produce additional evidence of his citizenship to any U. S. Shipping Commissioner or U. S. Local Inspector. If the additional evidence produced satisfies the U. S. Shipping Commissioner or the U. S. Local Inspector to whom it is presented that the same is acceptable evidence of the citizenship of the seaman, such official may draw lines through the question marks and note the nationality of the seaman in the space provided therefor, attesting the change. Whenever such changes are made in a continuous discharge book or certificate of identification, the official making the change shall immediately thereafter notify headquarters. (Sec. 7, 49 Stat.

1936, sec. 1, (j), 50 Stat. 49; 46 U.S.C. 689, 643 (j); E.O. 9082, February 28, 1942; 7 F.R. 1609.)

OUS EMPLOYMENT

Pursuant to the authority vested in me by section 501 of the Second War Powers Act, 1942 (Public Law 507, 77th Congress, 2d Session), I hereby waive compliance with the provisions of subsection (h), R.S. 4551, as amended (Title 46 U. List of Products on Which the United States Will Consider Granting Concessions to Bolivia

NOTE: The rates of duty indicated are those now applicable to products of Bolivia. Where the rate is one which has been reduced pursuant to a previous trade agreement by 50 percent (the maximum permitted by the Trade Agreements Act) it is indicated by the symbol MR. Where the rate represents a reduction pursuant to a previous trade agreement, but less than a 50 percent reduction, it is indicated by the symbol R. In such cases only the articles covered by the descriptive phraseology of the list will come under consideration for the granting of concessions.

In the event that articles which are at present regarded as classifiable under the descriptions included in the list are excluded therefrom by judicial decision or otherwise prior to the conclusion of the agreement, the list will nevertheless be considered as including such articles.

Six copies of written statements, either typewritten or printed, shall be submitted, of which one copy shall be sworn to. List of Products on Which the United States Will Consider Granting Concessions to Mexico

NOTE: The rates of duty or import tax indicated are those now applicable to products of Mexico. Where the rate is one which has been reduced pursuant to a previous trade agreement by 50 percent (the maximum permitted by the Trade Agreements Act) it is indicated by the symbol MR. Where the rate represents a reduction pursuant to a previous trade agreement, but less than a 50 percent reduction, it is indicated by the symbol R. Where an item has been bound free of duty in a previous trade agreement, it is indicated by the symbol B.

For the purpose of facilitating identification of the articles listed, reference is made in the list to the paragraph numbers of the tariff schedules in the Tariff Act of 1930, or, as the case may be, to the appropriate sections of the Internal Revenue Code. The descriptive phraseology is, however, in some cases limited to a narrower field than that covered by the numbered tariff paragraph or section in the Internal Revenue Code. In such cases only the articles covered by the descriptive phraseology of the list will come under consideration for the granting of concessions. In other cases, where the full descriptive phraseology is used, it may be that only a part of the classification as set forth in the list will come under consideration.

In the event that articles which are at present regarded as classifiable under the descriptions included in the list are excluded therefrom by judicial decision or otherwise prior to the conclusion of the agreement, the list will nevertheless be considered as including such articles.

The rates of duty and import tax shown in this list are without reference to the Act of March 13, 1942 (Public 497, 77th Congress, 2d Session), suspending the effectiveness during the existing national emergency of customs duties and import taxes on scrap iron, scrap steel and nonferrous-metal scrap.

[Docket No. A-1315]

PETITION OF EASTERN COAL CORPORATION, A CODE MEMBER IN DISTRICT NO. 8 FOR A REDUCTION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES APPLICABLE TO THE COALS PRODUCED AT MINE INDEX NOS. 183, 325, AND 449 FOR ALL SHIPMENTS TO FORD MOTOR COMPANY

ORDER OF CONSOLIDATION AND NOTICE OF AND ORDER FOR HEARING

Ford Motor Company has filed an application pursuant to the Second Paragraph of section 4-A of the Bituminous Coal Act of 1937, for a determination of the status of the coals produced at Mine Index Nos. 183, 325, and 449 in District No. 8 and consumed by the said Company.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by Eastern Coal Corporation requesting, in the event that the application of Ford Motor Company in Docket No. C-7 is denied, the reduction of the minimum prices applicable to the coals produced at Mine Index Nos. 183, 325, and 449, in District No. 8, by the said corporation for shipment to Ford Motor Company.

It appears that the matters concerned in the above designated dockets present related issues;

Now, therefore, it is ordered, That Dockets Nos. C-7 and A-1315 be consolidated for the purpose of hearing and for such other purposes as may be deemed advisable;

It is further ordered, That a hearing in the above-entitled matters under the applicable provisions of said Act and the rules of the Division be held on April 27, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street, N. W., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles S. Mitchell, or any other officer or officers of the Division duly designated for that purpose, shall preside at the hearing in such matters. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of appropriate orders in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein, and to all persons and entities having an interest in this proceeding and eligible to become a party herein.

1. Any person or entity desiring to be admitted as a party to the proceedings in Docket No. A-1315 shall file a petition of intervention in accordance with the Rules and Regulations of the Bituminous Coal Division for Proceedings Instituted Pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed, or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division not later than fifteen (15) days after the date of the issuance of this Notice of and Order for Hearing.

2. Any person or entity desiring to be admitted as a party to the proceedings in Docket No. C-7, and eligible under section VII (i) of the Rules and Practice and Procedure before the Bituminous Coal Division shall file a petition of intervention in Docket No. C-7 not later than fifteen (15) days after the issuance of this Notice of and Order for Hearing.

Notice is hereby given with respect to Docket No. C-7 that:

(1) Within fifteen (15) days from the date of the issuance of this Notice of and Order for Hearing, the applicant and other interested parties shall file with the Division a concise statement in writing of the facts expected to be proved at the hearing. Other interested parties shall also file a written intervention in compliance with Rule VIII of the aforesaid Rules of Practice and Procedure. The statements of facts shall be considered as pleadings and not as evidence of the facts therein stated. The affirmative evidence adduced by the parties at the hearing shall be limited to their respective statements of facts;

(2) If no written statements of the facts expected to be proved at the hearing are filed by the applicant within the fifteen-day period, in the absence of extenuating circumstances, the application shall be deemed to have been withdrawn on the expiration of said period in accordance with the provisions of section VII (g) of the aforesaid Rules of Practice and Procedure;

(3) If the applicant does not appear and offer evidence in support of his statements of facts, in the absence of extenuating circumstances, the application shall be deemed to have been withdrawn in accordance with the provisions of section VII (g) of the aforesaid Rules of Practice and Procedure;

(4) The burden of proof in this proceeding shall be on the applicant.

All persons are hereby notified that the hearing in the above-entitled matters and any orders entered therein may concern, in addition to the matters specifically alleged in the application and petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the application or petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this application or petition.

The matter concerned herewith:

1. In Docket No. C-7 is in regard to the application of Ford Motor Company, pursuant to the Second Paragraph of section 4-A of the Act, for the determination of the status of coal mined by Eastern Coal Corporation pursuant to agreements with the applicant dated March 24, 1937, and May 19, 1941, alleging that the said coal is exempt from section 44 of the Act because it is consumed by applicant, the producer thereof, or, transported by applicant to itself for consumption by it within the meaning of section 4 II (1) of the Act.

2. In Docket No. A-1315 is in regard to the petition of Eastern Coal Corporation for the establishment of minimum prices for coals produced at Mine Index Nos. 183, 325, and 449, in District No. 8, and shipped to Ford Motor Company, pursuant to agreements between petitioner and Ford Motor Company, dated March 24, 1937, and May 19, 1941, equal to the price per ton paid by Ford Motor Company to petitioner under the said agreement dated May 19, 1941.

IN THE MATTERS OF PECAN COAL COMPANY,

District Board 2 having filed complaints with the Bituminous Coal Division on May 26, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, alleging wilful violations by Pecan Coal Company and D. & W. PETITION OF DISTRICT BOARD NO. 15 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 15

[Docket No. A-1337 Part II]

PETITION OF DISTRICT BOARD NO. 15 FOR THE ESTABLISHMENT OF PERMANENT PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE CASSADY MINE (MINE INDEX NO. 1589), THE COOK MINE (MINE INDEX NO. 1583), AND THE THORN MINE (MINE INDEX NO. 1591) IN DISTRICT NO. 15, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1337 PART II FROM DOCKET NO. A-1337 AND GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1337 PART II

The original petition in the above-entitled matter, filed with this Division

pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests the establishment of temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 15.

As indicated in a separate order issued in Docket No. A-1337, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except with respect to the establishment of permanent price classifications and minimum prices, for truck shipments, for the coals of the Cassady Mine (Mine Index No. 1589) of code member Dale Cassady, the Cook Mine (Mine Index No. 1583) of code member Hollis Lawson and the Thorn Mine (Mine Index No. 1591) of code member Hugh Thorn, located in Putnam County, Missouri in Production Group 3 in District No. 15.

On March 23, 1942, a petition of intervention was filed in this matter by District Board No. 12 praying that the permanent establishment of the price classifications and minimum prices proposed by the original petitioner for the coals of Mine Index Nos. 1589, 1583 and 1591 be denied pending final determination of related and analogous issues in Docket No. A-179, which was consolidated with Docket No. A-492 by the order of May 12, 1941, and that the request in the original petition for a reduction of 20 cents per ton in the proposed minimum price for the mine run coals of those mines containing 30% or more screenings that will pass through a 1 1/4" screen also be denied.

It appears from the petition that the coals of Mine Index Nos. 1589, 1583 and 1591 possess marketing qualities and factors similar to those of the other coals heretofore classified and priced and now being produced in Putnam County, Missouri, and that the same minimum prices should be applicable for all such coals, in their respective size groups, for shipment by truck into all market areas.

Those previously priced coals are now subject to the temporary minimum prices set forth in the order entered December 7, 1940 in Docket No. A-179. Pending final determination of the issues in that docket a petition was filed in Docket No. A-492 wherein it was requested that those minimum prices made effective temporarily in Docket No. A-179 be made permanent. The two dockets were thereafter consolidated, but, in accordance with a request and stipulation filed therein by all the parties thereto, there has been no change in the temporary prices made effective by the order of December 7, 1940, and no permanent order has been entered.

In view of the foregoing, it is deemed advisable at this time to establish only temporarily the proposed price classifications and minimum prices for the coals of Mine Index Nos. 1589, 1583 and 1591, and that their permanent classification and pricing should await final determination of the related issues raised in Docket Nos. A-179 and A-492.

Now, therefore, it is ordered, That the portion of Docket No. A-1337 relating to the coals of the Cassady Mine (Mine Index No. 1589), the Cook Mine (Mine Index No. 1583), and the Thorn Mine (Mine Index No. 1591) be, and it hereby is, severed from the remainder of that docket and designation as Docket No. A-1337 Part II.

It is further ordered, That temporary relief, pending final disposition of Docket No. A-1337 Part II is hereby granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 15 for Truck Shipments is supplemented to include the price classifications and minimum prices set forth below for the coals of the Cassady Mine (Mine Index No. 1589) of code member Dale Cassady, the Cook Mine (Mine Index No. 1583) of code member Hollis Lawson, and the Thorn Mine (Mine Index No. 1591) of code member Hugh Thorn:

W., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Administration.

DETERMINATION¹ WITH RESPECT TO THE ISSUANCE OF AMENDMENT NO. 2 TO ORDER NO. 34, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

Pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, there was issued, effective August 1, 1941, "Order No. 34, As Amended," regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area.

A marketing agreement regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area was tentatively approved on July 14, 1941.

Subsequently, amendment No. 1 to "Order No. 34, As Amended," was made effective on November 1, 1941.

There being reason to believe that the execution of amendments to the tentatively approved marketing agreement and of further amendments to the order regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area would tend to effectuate the declared policy of said act, notice was given, on

January 14, 1942, of a public hearing, which was held on January 21, at Andover, Massachusetts, on certain proposals to effectuate such further amendments. At such time and place all interested parties were afforded an opportunity to be heard on these proposals.

After such hearing, and after the tentative approval by the Secretary of Agriculture of the said amendments to the tentatively approved marketing agreement, handlers of more than fifty (50) percent of the volume of milk covered by the order, as amended, refused or failed to sign the marketing agreement.

It is hereby determined, pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, that:

1. The refusal or failure of said handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

2. The issuance of amendment No. 2 to Order No. 34, as amended, is the only practical means pursuant to such policy of advancing the interests of the producers of milk which is produced for sale in the Lowell-Lawrence, Massachusetts, marketing area; and

3. The issuance of amendment No. 2 to Order No. 34, as amended, is approved or favored by over two-thirds of the producers who, during the month of November 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area.

Done at Washington, D. C., this 31st day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

Approved:

FRANKLIN D. ROOSEVELT
The President of the United States.

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO A TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND A MARKETING ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE NEW ORLEANS, LOUISIANA, MARKETING AREA

Pursuant to § 900.12 (a), General Regulations, Surplus Marketing Administration, United States Department of Agriculture, notice is hereby given of the filing with the hearing clerk of this report of the Administrator of the Agricultural Marketing Administration, with respect to proposed amendments to a tentatively approved marketing agreement, as amended, and to the marketing order, as amended, regulating the han-

dling of milk in the New Orleans, Louisiana, marketing area. Interested parties may file exceptions to this report with the Hearing Clerk, Room 0312, South Building, Department of Agriculture, Washington, D. C., not later than the close of business on the 7th day after publication of this notice in the *FEDERAL REGISTER*.

The proceedings initiating these proposed amendments were instituted as the result of the filing of specific proposals for amendment and a written application for hearing by producers and handlers affected by the New Orleans regulation. After consideration and investigation, the conclusion was drawn that a hearing should be held, and notice of hearing was accordingly issued on March 13. The hearing convened March 19 at Amite, Louisiana, and closed March 20 in New Orleans, Louisiana.

The major issue developed at the hearing was concerned with the pricing of milk.

It was concluded from the record that it is necessary to fix prices, under section 8c (18) of the act, so as to reflect the economic conditions which affect the market supply of and demand for milk in the marketing area, maintain an adequate supply of pure and wholesome milk, and be in the public interest.

The proposed amendments are recommended as the detailed means by which these conclusions may be effectuated.

This report filed at Washington, D. C., the 4th day of April 1942.

[SEAL] ROY F. HENDRICKSON,
Administrator.

PROPOSED AMENDMENTS TO THE MARKETING ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE NEW ORLEANS MARKETING AREA

These proposed amendments are prepared by the Administrator pursuant to § 900.12 (a) of the General Regulations, Surplus Marketing Administration, and have not received the approval of the Secretary of Agriculture.

It is found, upon the evidence introduced at the public hearing held in Amite, Louisiana, on March 19, and in New Orleans, Louisiana, on March 20, 1942, such findings being in addition to the findings made upon the evidence introduced at prior public hearings on the order, as amended, (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

Findings

a sufficient quantity of pure and wholesome milk, and be in the public interest.

2. That the order, as amended, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO A TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND A MARKETING ORDER AS AMENDED, REGULATING THE HANDLING OF MILK IN THE WASHINGTON, D. C., MARKETING AREA

Pursuant to § 900.12 (a) of the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture, governing proceedings to formulate marketing agreements and marketing orders, notice is hereby given of the filing with the hearing clerk of this report of the Administrator of the Agricultural Marketing Administration, with respect to proposed amendments to a tentatively approved marketing agreement, as amended, and to a marketing order, as amended, regulating the handling of milk in the Washington, D. C., marketing area. Interested parties may file exceptions to this report with the Hearing Clerk, Room 0312, South Building, Department of Agriculture, Washington, D. C., not later than the close of business on the 7th day after publication of this notice in the FEDERAL REGISTER.

Preliminary Statement

The proceedings were initiated by the Surplus Marketing Administration upon receipt of a petition on December 23, 1941, from the Maryland and Virginia Milk Producers' Association, Inc., for a public hearing on proposals to revise the definition of the marketing area, to revise upward the Class I and Class II prices, to provide for a Class III price on a bid basis, to provide for a skim milk allowance on a formula basis, to revise the classification of plant loss or waste, to revise the provision for payment of prorata share of expense of testing for butterfat, and to provide for advance payments to producers. A proposal to revise the classification of plant shrinkage and overage was received from three handlers. A proposal to revise the classification of Class III milk was received from two handlers. A proposal to revise the formula for the Class III price to provide for a market-wide pool, and to revise the computation of the volume of Class I milk was received from one handler. A proposal to revise the computation of the volume of milk to be accounted for by each handler in each class, to revise the definition of Class II milk, and to revise the computation of the value of milk for each handler was received from the market administrator, Washington, D. C., marketing area. A proposal for revision of classification was received from the Consumers' Counsel, United States Department of Agriculture. After consideration of the proposals, notice of hearing was issued on February 5, 1942, and the hearing was convened on February 12, 16, 17, 18, and 19, 1942.

The major issues developed in the hearing revolved around the level at which class prices should be fixed, the pricing of skim milk on a powder price formula, the justification of an advance payment to producers, the advisability of combining milk sold as fluid milk and as fluid cream into a single price class, the extension of the marketing area to include additional territory in the State of Maryland, the effect on milk production of the base-rating plan used by the producers' association, and the equity of requiring handlers to pay the Class I price for plant shrinkage or overage.

It is concluded from the record that an amendment be issued and a marketing agreement offered to the handlers which will provide changes in Order No. 45, as amended, as follows:

1. Milk now classified as Class II milk to be classified as Class I milk and all other milk to be classified as Class II milk.

2. The present Class I prices with the exception of milk sold to low-income groups to be continued. These prices would otherwise automatically be reduced 40 cents per hundredweight on May 1, 1942. The price of milk sold to low-income groups to be \$3.11 per hundredweight rather than \$2.395 per hundredweight.

3. The price for Class II milk (now Class III) to be determined by a formula providing a value for butterfat comparable with the price of western cream in eastern markets, particularly Philadelphia, Pennsylvania, and a value for the skim milk portion of Class II milk to be determined by the price quotations for dry skim milk powder that are published by the United States Department of Agriculture. The present formula for Class III does not include a value for the skim milk portion of Class III milk.

4. The price for Class I milk sold outside the marketing area to be the Class I price fixed for the marketing area.

5. The provisions pertaining to classification of milk to be revised to provide for classifying fluid milk or cream received in a plant at which milk is received from producers from plants at which no milk is received from producers.

6. The time and method of payment to producers to be semimonthly rather than monthly as required in the present order.

7. The butterfat differential to be paid producers to be not less than one-fortieth of the value of butterfat computed pursuant to the Class II formula price for each one-tenth of 1 percent of average butterfat content above or below 4 percent rather than 5 cents per hundredweight for each one-tenth of 1 percent variation as contained in the present order.

8. The prorata share of the expense of testing for butterfat in milk received by each handler to be one-half of the ex-

pense of such testing rather than 7½ cents per test.

The above major changes have also necessitated numerous minor changes in other parts of the order.

The proposed amendments are recommended as the detailed means by which these conclusions may be carried out.

This report was filed at Washington, D. C., the 4th day of April 1942.

[SEAL] ROY F. HENDRICKSON,
Administrator.

PROPOSED AMENDMENTS TO THE MARKETING ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE WASHINGTON, D. C., MARKETING AREA

These proposed amendments are prepared by the Administrator, Agricultural Marketing Administration, pursuant to § 900.12 (a) of the General Regulations, Surplus Marketing Administration, and have not received the approval of the Secretary of Agriculture.

It is found upon the evidence introduced at the public hearing held in Washington, D. C., on February 12, 16, 17, 18, and 19, 1942, such findings being in addition to the findings made upon the evidence introduced at the hearings on the order, and being in addition to the other findings made prior to or at the time of the original issuance of the order and of amendments thereto (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

Findings

1. That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to secs. 2 and 8e (50 Stat. 246; 7 U.S.C. 1940 ed. 602, 608e), are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

2. That the order, as amended by this amendment, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

3. That the issuance of this amendment to the order, as amended, and all of the terms and conditions of the order, as so amended, tend to effectuate the declared policy of the act.

Provisions

A. Change the period at the end of § 945.1 (a) (5) to a colon and add the following:

Provided, That this definition shall not include persons delivering milk to a plant

outside the marketing area from which no milk is shipped to the marketing area as milk.

B. Delete § 945.1 (a) (6) and substitute therefor the following:

(6) The term "handler" means any person, irrespective of whether such person is also a producer or a cooperative association of producers, who engages in such handling of milk or cream disposed of in the marketing area for Class I use as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products: *Provided*, That this definition shall not include producers or cooperative associations of producers with respect to milk or cream not handled through their own receiving or bottling plants.

C. In § 945.3 (a) (1) substitute "11th" for "8th".

D. In § 945.3 (a) (3) substitute "19th" for "16th".

E. Delete § 945.4 (b) (1) and (2) and substitute therefor the following:

(1) Class I milk: All milk disposed of in the form of fluid milk, sales of skim milk, buttermilk, flavored or manufactured milk drinks for human consumption, and all milk the utilization of which is not classified in Class II.

F. Renumber § 945.4 (b) (3) to § 945.4 (b) (2) and change "Class III" to "Class II."

G. Delete § 945.4 (c) and substitute therefor the following:

(c) *Transfers of milk and cream.* (1) Milk, skim milk, or cream received at a handler's plant from another handler's plant, at both of which milk is received from producers shall be allocated to Class I: *Provided*, That if a different allocation is agreed upon in writing between such receiving handler and such selling handler or cooperative association and is submitted to the market administrator, then the milk, skim milk, and cream shall be allocated according to such written agreement: *And provided further*, That the amount so allocated to any class shall not be greater than the amount used in that class by the receiving handler after deduction of any milk pursuant to subparagraph (2) of this paragraph.

(2) Milk, skim milk, and cream received at a plant at which milk is received from producers from a plant at which no milk is received from producers shall be allocated to Class II, except that any of this milk, skim milk, and cream in excess of the amount of Class II milk used by the receiving handler shall be allocated to Class I.

(3) Milk, skim milk, and cream received at a plant at which milk is received from producers from a plant under another Federal milk marketing agreement or order shall be allocated to each class in accordance with its classification as determined by the market administrator under the latter order.

H. Delete § 945.4 (d) and substitute therefor the following:

(d) *Computation of the volume of milk to be accounted for by the handler*

in each class. For each delivery period, the market administrator shall compute for each handler the volume of milk that he is to account for in each class as follows:

(1) Class I milk: Subtract the pounds of milk and the milk equivalent (at the average test of milk from producers) of cream disposed of for the account of an association of producers and the Class II milk computed pursuant to subparagraph (2) of this paragraph from the total receipts of milk from producers.

(2) Class II milk: Divide the pounds of butterfat in cream disposed of as Class II milk by the average test of milk received from producers.

I. Delete § 945.5 and substitute therefor the following:

§945.5 *Minimum prices*—(a) *Class prices.* Each handler shall pay not less than the following prices, at the time and in the manner set forth in § 945.8, and subject to paragraphs (b), (c), and (d) of § 945.8 for milk purchased or received from producers and associations of producers.

(1) Class I milk: \$3.57 per hundredweight: *Provided*, That the price of Class I milk disposed of by a handler from a plant not having a health department permit to sell fluid milk or fluid cream in the District of Columbia shall be \$3.11 per hundredweight: *And provided further*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income groups including persons who are on relief, the price shall be not less than \$3.11 per hundredweight.

(2) Class II milk: The price per hundredweight during each month shall be the sum of the respective values of butterfat and skim milk, calculated as follows by the market administrator:

(i) *Butterfat:* Add all market quotations (using midpoint of any weekly range as one quotation) of prices for a 40-quart can of sweet cream approved either for Pennsylvania only, or for Pennsylvania, Newark, and Lower Merion Township, in the Philadelphia, Pennsylvania, market, reported for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract 28 cents, divide by 33.48, multiply by 4, and subtract 23½ cents.

(ii) *Skim milk:* Any plus amount which is equal to 7.5 times the average price of all dry skim powder as quoted in the monthly "Dry Milk Report of the Agricultural Marketing Administration, United States Department of Agriculture" (using midpoint of any range as one quotation), less 4.5 cents.

J. Throughout § 945.7 (b) (1) and (2) substitute "14th" for "11th" and in § 945.7 (b) (1) (iii) substitute "Class II" for "Class III."

K. Delete § 945.8 (a) and substitute therefor the following:

(a) *Time and method of payment*—(1) *Semimonthly payments.* On or before the last day of each delivery period, each handler shall make payment to producers for milk delivered during the first

15 days of such period at not less than a rate per hundredweight which is estimated will be his uniform price for such month.

(2) *Final payments.* On or before the 18th day after the end of each delivery period, each handler shall make full payment, subject to paragraphs (b), (c), (d), and (e) of this section for the total value of milk received from producers and associations of producers during the delivery period computed pursuant to § 945.7, after taking credit for payments made pursuant to § 945.8 (a) (1), except as provided for in paragraph (f) of this section, as follows:

(i) To each producer except as provided in subdivision (ii) of this subparagraph at not less than the composite price for milk containing 4 percent butterfat, computed pursuant to § 945.7.

(ii) To a cooperative association for (a) milk which is caused to be delivered to a handler from producers by a cooperative association, and for which such cooperative association collects payment, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers under subdivision (i) of this subparagraph minus an amount equal to the hundredweight of milk or milk equivalent of cream disposed of for the account of the association times the composite price plus the milk equivalent of the butterfat in such milk and cream (at the average test of milk received from producers) times the skim value computed pursuant to § 945.5 (a) (2) (ii) less 23½ cents, and (b) other milk or cream, in each use classification determined pursuant to § 945.4 (c) and (d), respectively, received by such handler for the account of an association of producers at not less than the class prices specified in § 945.5, plus the weighted average premium per hundredweight payable to producers by such handler.

L. Delete the words "5 cents per hundredweight" in § 945.8 (c) and substitute therefor the following:

"an amount per hundredweight of milk equal to one-fortieth of the price for butterfat computed pursuant to § 945.5 (a) (2) (i)."

M. In § 945.8 (e) substitute "Class I milk" for "combined total of Class I milk and Class II milk."

NOTICE OF HEARING IN THE MATTER OF EMPLOYMENT OF LEARNERS AT LESS THAN THE MINIMUM WAGE RATE IN THE GLOVES AND MITTENS INDUSTRY

Whereas the Administrator of the Wage and Hour Division duly appointed Industry Committee No. 40 for the purpose of recommending to the Administrator the highest minimum wage rate (not in excess of 40 cents per hour) which will not substantially curtail employment in the Gloves and Mittens Industry; and

Whereas the said Committee duly filed its Report and Recommendation on January 28, 1942, to the effect that every employer shall pay not less than 40 cents per hour to each of his employees in the Gloves and Mittens Industry as defined in Administrative Order No. 137 dated January 6, 1942 and published in the FEDERAL REGISTER on January 9, 1942; and

Whereas Industry Committee No. 40 in its resolution to the Administrator recommended that the proportion of learners in the Gloves and Mittens Industry is a matter sufficiently important to justify a hearing at an early date to determine what, if any, changes in the present Determination for the Glove Industry may be necessary:

Now, therefore, notice is hereby given: that a public hearing will commence at 10:00 A. M., Tuesday, April 28, 1942, at 165 West 46th Street, New York City, in Room 1610, before Alex G. Nordholm, of the Hearings Branch of the Wage and Hour Division, hereby duly authorized as Presiding Officer to conduct said hearing, to take testimony for the purpose of determining what, if any, changes should be made in the Findings and Determination of Merle D. Vincent, dated February 8, 1940, with respect to the employment of learners in the Glove Industry.

At this hearing opportunity to present evidence relevant to this question will be afforded any interested person, provided the Presiding Officer shall have received from such person, prior to noon, Monday, April 27, 1942, a notice of intention to appear, setting forth his name and address, the company of organization which he represents, and the approximate length of time required for such presentation. Any interested person unable to make personal appearance may file a brief or statement which will be considered if received on or before April 28, 1942.

As used in this notice, the term "Gloves and Mittens Industry" is defined as follows:

"The production of gloves and mittens from any material or combination of materials, except athletic gloves and mittens: *Provided, however*, That the definition shall not include any product the manufacture of which is covered by an order of the Administrator defining an industry, and approving the recommendation of an industry committee or appointing an industry committee for such industry, issued prior to the signing of

Administrative Order No. 137 appointing Industry Committee No. 40 for the Gloves and Mittens Industry, except the products included in the wage orders issued for the 'Work Gloves and Mittens' and the 'Gloves and Mittens Other Than Work Gloves and Mittens' Divisions of the Apparel Industry."

Signed at New York, N. Y., this 3d day of April 1942.

L. METCALFE WALLING,
Administrator.

FEDERAL TRADE COMMISSION.

[Docket No. 4307]

IN THE MATTER OF INTERNATIONAL SALT COMPANY, INTERNATIONAL SALT COMPANY, INC., INDEPENDENT SALT COMPANY, EASTERN SALT COMPANY

AMENDED COMPLAINT

The Federal Trade Commission, having reason to believe that the parties respondent named in the caption hereof and hereafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsections (a) and (d) of section 2 of the Clayton Act (U.S.C. Title 15, section 13), as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint stating its charges with respect thereto as follows:

Count I

PARAGRAPH ONE: International Salt Company is a corporation organized and existing under and by virtue of the laws of the State of New Jersey having its principal office and place of business located in the Scranton Life Insurance Company Building, Scranton, Pennsylvania.

International Salt Company, Inc., is a corporation organized and existing under and by virtue of the laws of the State of New York, having its principal office and place of business located in the Scranton Life Insurance Company Building, Scranton, Pennsylvania.

Independent Salt Company is a corporation organized and existing under and by virtue of the laws of the State of New York, having its principal office and place of business located at 475 Fifth Avenue, New York, New York.

Eastern Salt Company is a corporation organized and existing under and by virtue of the laws of the State of Massachusetts having its principal office and place of business located at 150 Causeway Street, Boston, Massachusetts.

Respondents International Salt Company, Inc., Independent Salt Company, and Eastern Salt Company are wholly owned subsidiaries of respondent International Salt Company and are under the direct and immediate control of, and their policies are directed by, said respondent International Salt Company.

PAR. TWO: Respondent International Salt Company, through such wholly owned subsidiaries, is now and has been engaged in the business of offering for

sale, selling and distributing salt in all parts of the United States. The respondent International Salt Company is one of the largest producers of salt in the United States and distributes its product through its wholly owned subsidiaries, respondents International Salt Company, Inc., Independent Salt Company, and Eastern Salt Company. Respondents sell their products directly and through such subsidiaries to wholesalers, retailers, corporate wholesale chains, corporate retail chains, voluntary and co-operative chains, and individual commercial purchasers. Respondents sell and distribute their products in commerce between and among the various states of the United States and in the District of Columbia and preliminary to or as a result of such sale cause such products to be shipped and transported from the places of origin of the shipment to the purchasers thereof who are located in states of the United States and in the District of Columbia other than the state of origin of the shipment, and there is and has been at all times herein mentioned a continuous current of trade in commerce in said products across state lines between respondents' plants, factories, or warehouses and the purchasers of such products. Said products are sold and distributed for use, consumption and resale within the various states of the United States and in the District of Columbia.

PAR. THREE: In the course and conduct of their business as aforesaid, respondents have been and are now engaged in substantial competition in commerce with other corporations, individuals, partnerships and firms who for many years prior hereto have been and are now engaged in processing, selling, and distributing salt in commerce across state lines to purchasers thereof located in the various states of the United States.

Many of the respondents' customers are competitively engaged with each other and with the customers of the respondents' competitors in the resale of said products within the several trade areas in which the respondents' said customers respectively offer for sale and sell the said products purchased from respondents.

PAR. FOUR: In the course and conduct of their business as aforesaid since June 19, 1936, respondents have been and are now discriminating in price between different purchasers buying such products of like grade and quality by selling their products to some of their customers at higher prices than they sell products of like grade and quality to other of their customers who are competitively engaged one with the other in the resale of said products within the United States.

Among the general practices pursued by the respondents in discriminating in price, are the following:

(1) The respondents grant to some of their customers who are competitively engaged in the sale of salt of like grade and quality with other of respondents' customers a "unit discount" amounting to approximately 5¢ per case on table

salt where a single order is placed for 100 cases or more of table salt.

(2) The respondents grant to some of their customers who are competitively engaged in the sale of salt of like grade and quality with other of respondents' customers in addition to the "unit discount" referred to in paragraph (1) hereof, "multiple unit discounts" of various amounts on all grades of salt purchased during a 12 consecutive month period where such purchases are equal to or in excess of \$50,000.

The "multiple unit discounts" referred to in paragraph (2) hereof mentioned are allowed to some, but not all, customers of the respondents who do not purchase from the respondent \$50,000 worth of salt during a 12 consecutive month period, provided, however, the total purchases of salt from all sources made by said customer total \$50,000 during said given period of time.

In the industry, this type of selling is known as "split business", that is, basing the price upon the total requirements of a customer and not upon the actual quantity purchased from any particular source.

In addition to the discriminations affected by the afore-mentioned "multiple unit discounts" respondents discriminate in price between different purchasers of their products and such price discriminations result from the respondents' selling salt to an individual customer where the delivery thereof is made to several branches or outlets of said individual customer at prices based upon the total quantity or volume delivered to all of the separate branches or outlets of the said customer, provided such total quantity or volume amounts to the required minimums during the 12 consecutive month period as set forth in paragraph (2) hereinbefore mentioned and not upon the quantity or volume delivered by the respondents to the respective branches or outlets of some individual customers.

In the industry, this type of selling is known as "combined selling", that is, basing the price upon the total quantity delivered to all the separate branches or outlets of an individual customer and not upon the quantity delivered to the respective branches or outlets of said customer. Some customers of the respondents operating several branches whose combined purchases are less than the total quantity or volume amounts required during the 12 consecutive month period as set forth in paragraph (2) hereinbefore mentioned receive "multiple unit discounts" in addition to the "unit discount" as set forth in paragraph (1) hereof and are competitively engaged with other of respondents' customers who purchase in like quantity or volume and who receive no discounts whatsoever.

PAR. FIVE: The effect of the discriminations in price mentioned in Paragraph Four herein has been and may be substantially to lessen competition in the line of commerce in which the purchasers receiving the benefits of such discriminatory prices are engaged and to injure, destroy and prevent competition between

those purchasers receiving the benefit of said discriminatory prices and those to whom they are denied and has been and may be to tend to create a monopoly in those purchasers receiving the benefit of said discriminatory prices in said line of commerce in the various localities or trade areas in the United States in which said favored customers and their competitors are engaged in business.

PAR. SIX: The foregoing acts and practices of said respondents are violations of subsection 2 (a) of section 1 of said Act of Congress, approved June 19, 1936, entitled "An Act to amend section 2 of an Act entitled 'An Act to supplement existing laws against unlawful restraints and monopolies and for other purposes approved October 15, 1914, as amended (U.S.C. Title 15, sec. 13) and for other purposes.'"

Count II

PAR. ONE: Paragraphs One, Two, and Three of Count I. are hereby adopted and made part of this count as fully as if herein set out verbatim.

PAR. TWO: In the course and conduct of their business in commerce, respondents, since June 19, 1936, have secretly paid and contracted to pay to some of their customers certain definite sums of money as compensation and in consideration for advertising, display, and distribution services, and facilities furnished by such customers in connection with the sale and offering for sale of table salt, while concealing such payments from competing customers and not making such payments available on proportionally equal terms or on any terms to customers competing in the distribution of salt. Such payments are in addition to the price discrimination referred to in Count I.

Among the general practices thus pursued by the respondents in granting allowances or compensation to their favored customers are the following:

(1) The respondents have paid to some favored customers the sum of \$50 per month as an advertising and display allowance while respondents did not and do not make such payments available on proportionally equal terms to all competing customers or on any terms to customers competing in the sale and distribution of such products.

(2) The respondents have paid compensation to some retail chain store customers in connection with the sale of respondents' table salt, the sum of \$2.50 for each daily display of "2 pound round cans of plain or iodized Sterling Salt in quantities between 10 and 15 cases in each" of such customers retail outlets. The respondents have not and do not make such display allowances available on proportionally equal terms to all competing customers or on any terms to customers competing in the sale and distribution of such products.

PAR. THREE: The respondents have not made known to their customers, except their favored customers, that they grant and allow any compensation for advertising, display, and distribution services.

PAR. FOUR: The above acts and practices of respondents are in violation of

subsection (d) of section 2 of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. Title 15, sec. 13).

Wherefore, the premises considered, the Federal Trade Commission, on this 2d day of April, A. D. 1942, issues its complaint against said respondents.

NOTICE

Notice is hereby given you, International Salt Company, International Salt Company, Inc., Independent Salt Company, and Eastern Salt Company, respondents herein, that the 8th day of May, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as

to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed at Washington, D. C., this 2nd day of April, A. D. 1942.

IN THE MATTER OF UNION ELECTRIC COMPANY OF MISSOURI AND UNION ELECTRIC COMPANY OF ILLINOIS

ORDER APPROVING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 3rd day of April, A. D. 1942.

Union Electric Company of Missouri, a registered holding company and a subsidiary of The North American Company, also a registered holding company, and Union Electric Company of Illinois,

a subsidiary of Union Electric Company of Missouri, having on March 6, 1942 filed a joint application and declaration pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (b), 7, 10, 12 (b), and 12 (d) and Rule U-44 and U-45 promulgated thereunder regarding (1) the proposal by Union Electric Company of Missouri (a) to issue and sell \$10,000,000 additional principal amount of its First Mortgage and Collateral Trust Bonds, 3½% Series due 1971, and publicly to invite sealed, written proposals for their purchase and to use the proceeds therefrom for new construction and for the purchase of additional common stock of its subsidiary, Union Electric Company of Illinois, (b) to purchase, from time to time during the period ending April 30, 1943, for cash, at the par value thereof, up to 500,000 shares having an aggregate par value of \$10,000,000 of additional common stock of Union Electric Company of Illinois and to deposit all shares so purchased with the Trustee under its Mortgage and Deed of Trust securing its First Mortgage and Collateral Trust Bonds, and (c) in the event all necessary steps prerequisite to the issue and sale of the common stock of Union Electric Company of Illinois have not been completed prior to the time when Union Electric Company of Illinois may be in need of additional funds, to advance to Union Electric Company of Illinois, from time to time during the period ending April 30, 1943, sums aggregating up to \$1,000,000, without interest, to be applied against the purchase price of the common stock to be subsequently purchased as set forth in (b) above; and (2) the proposal of Union Electric Company of Illinois (a) to issue and sell to Union Electric Company of Missouri, from time to time during the period ending April 30, 1943, for cash, at the par value thereof up to 500,000 shares having an aggregate par value of \$10,000,000 of additional common stock and to use the proceeds therefrom for new construction, and (b) in case all necessary steps prerequisite to the issue and sale of its common stock have not been completed prior to the time when it may be in need of additional funds, to borrow from Union Electric Company of Missouri, from time to time during the period ending April 30, 1943, sums aggregating up to \$1,000,000, without interest, to be applied against the purchase price of its common stock subsequently sold as set forth in (a) above and to use the proceeds from any such advances for new construction; and

Said applicants and declarants having by an amendment filed March 20, 1942, stated that the proceeds from the sale of the proposed bonds would be used in part to purchase for cash, from time to time during the period ending April 30, 1943, up to \$10,000,000 additional par value of the capital stock of Union Electric Company of Illinois, the type of capital stock to be purchased and the consideration to be paid therefor being subject to the approvals of regulatory bodies; and having by said amendment requested that the action of the Commis-

sion on the proposals set forth in 1 (b) and 2 (a) in the preceding paragraph with respect to the issuance of common stock by Union Electric Company of Illinois and the acquisition and deposit of such stock by Union Electric Company of Missouri be postponed; and

The Commission by its order dated March 31, 1942, having approved said application, as then amended, and permitted said declaration, as then amended, to become effective, subject to certain conditions specified therein, with respect to the proposals set forth in 1 (a) and (c) and 2 (b) in the first paragraph of this order, namely, those relating to the issuance of the proposed bonds by Union Electric Company of Missouri and the making of the advances by latter company to Union Electric Company of Illinois; and having by said order postponed all action and reserved jurisdiction with respect to the proposals contained in 1 (b) and 2 (a) of the first paragraph hereof; and

Said applicants and declarants having on March 27, 1942 filed an amendment stating that in lieu of the proposals set forth in 1 (b) and 2 (a) in the first paragraph hereof that (a) Union Electric Company of Missouri proposes to use part of the proceeds from the sale of its new bonds to acquire for cash from Union Electric Company of Illinois, from time to time, during the period ending April 30, 1943, up to 100,000 shares having an aggregate par value of \$10,000,000 of Preferred Stock, 3½% Series, of Union Electric Company of Illinois, and to deposit all such preferred stock so acquired with the Trustee under its Mortgage and Deed of Trust securing its First Mortgage and Collateral Trust Bonds, and (b) Union Electric Company of Illinois proposes to issue and sell for cash to Union Electric Company of Missouri, from time to time during the period ending April 30, 1943, up to 100,000 shares having an aggregate par value of \$10,000,000 of Preferred Stock, 3½% Series, and to use the proceeds therefrom for construction. The proposed Preferred Stock will have a par value of \$100 per share and a cumulative dividend rate of 3½% per annum; the price per share at which the same is to be sold (exclusive of accrued dividends) is to be an amount not less than the price per \$100 principal amount (exclusive of accrued interest) to be received by Union Electric Company of Missouri upon the sale of its bonds as aforesaid; and such stock is to be redeemable at the option of the issuer at any time at a redemption price equivalent to the sale price, plus accrued dividends to the redemption date.
